

# Workplace for Development Banks

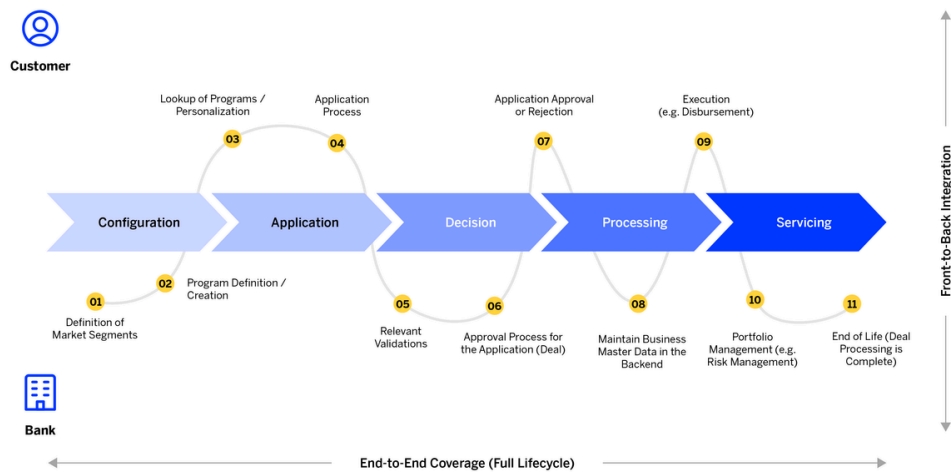

A purpose-built platform to manage funding programs

## At a glance

SAP Pioneer's Digital Workplace for Development Banks (DWD) is purpose-built for institutions managing complex funding programs under regulatory pressure. Its one-platform architecture consolidates systems, data, and processes — reducing IT complexity and accelerating time to market for development banks.

## Overview

- **End-to-end program and grant management:** Full funding lifecycle from intake to monitoring.
- **Configurable process automation:** Dynamic workflows with task and escalation management.
- **Modular and scalable architecture:** Built on SAP S/4HANA and SAP BTP for rapid adaptation.
- **Integrated reporting and KPI framework:** Real-time dashboards for performance and regulatory reporting.
- **Secure document and user management:** Role-based access control and GDPR compliance.

**“In development banking, no two funding programs are alike. If you can set up a new program by maintaining content instead of rewriting code, you can respond to market changes or crises in weeks rather than months.”**

**Felix Kiesel**  
Managing Director Small Cap  
Banking, SAP Pioneer

**Up to 2x**

faster program launch and reduced processing effort

## Capabilities

DWD enables development banks to launch and adapt funding programs rapidly using low-code tools and reusable templates. Automated workflows, centralized data, and real-time visibility drive operational efficiency and public accountability while a modular, future-ready architecture ensures long-term compliance and innovation.

 **Faster program launch**

 **Operational efficiency and transparency**

 **Compliance and future-readiness**

 **Adaptability throughout**

SAP Pioneer provides software solutions for banks and insurance companies: built on rock-solid technology and bold creativity.
