Export Control and Sanctions Compliance

The provision and use of SAP Fioneer software and services (including Software-as-a-Service) (collectively, "Software and Services") are subject to applicable export control and sanctions laws, including the laws of Germany, the European Union, the United Kingdom and the United States of America.

Destination Restrictions

Independently of, and in addition to, applicable legal restrictions, SAP Fioneer applies the following availability restrictions as a matter of company policy. SAP Fioneer does not provide the Software and Services, directly or indirectly, in or to any destination listed below. Customers must not access or use, or permit any third party to access or use, the Software and Services in or from, or export, re-export, transfer or otherwise make them available to, any such destination:

- Belarus
- Cuba
- Islamic Republic of Iran
- Democratic People's Republic of Korea (North Korea)
- Russian Federation
- Syrian Arab Republic
- Ukraine regions of Crimea and Sevastopol, and the non-government-controlled areas of the Donetsk, Kherson, Luhansk and Zaporizhzhia oblasts

SAP Fioneer may update this list from time to time. Updates apply to agreements entered into after publication. For existing agreements, updates apply only where required by applicable law or expressly permitted under the relevant agreement.

End User Restrictions

The Software and Services must not be made available, directly or indirectly, to any individual or entity where the relevant transaction is prohibited or requires a license or authorization that has not been obtained, under applicable export control or sanctions laws. This includes designated or listed parties and any entity that is owned or controlled by, or otherwise treated as restricted due to its relationship with, such a party under applicable ownership or control rules.

End Use Restrictions

The Software and Services may not be used for any end use prohibited under applicable export control laws, including prohibited nuclear, missile, chemical or biological weapons-related activities, and prohibited military or military-intelligence end uses.
Transactions involving destinations, end users or end uses presenting elevated export control or sanctions risks may be subject to enhanced due diligence. If a license, authorization or other governmental approval is required, the transaction may proceed only after the required approval has been obtained and the transaction has been approved by SAP Fioneer in accordance with its internal policies.

Export Classification

Product-specific export classification information is available on request, where applicable.

Disclaimer: This page does not constitute legal advice or a complete statement of applicable export control or sanctions laws. Customers remain responsible for assessing and complying with the laws applicable to their own activities. Nothing in this disclaimer limits the contractual effect of the restrictions set out above to the extent this document is incorporated into or otherwise forms part of an agreement.
